

East Waterway Proposed Plan

We need your voice! Help us advocate for a clean river!

My name is: (b)(6)

The EWW matters to me because I live/work in: **Burien/South park**, which is located near it. The cleanup of the EWW matters to my community because: **ff the water is clean, then this does not put the health of my community at risk.**

I am happy that the EPA has agreed t change its goal to achieve the PCB concentrations to natural background. But I am not happy that the EPA is not: **studying the marine population and how toxic the marine life is.**

I would like to recommend: **continuing with the plan to clean the river.**
